Letter to the editor: It was inevitable

JANUARY 16, 2026 / OPINION

It was inevitable, when you deliberately place any human being under high stress potentially life-threatening situations that something bad is going to happen.

Yet that is exactly what a myriad of virulent hyper-left organizations are doing to ICE officers on a daily basis.

The only crime these lawmen and women have committed is protecting Americans by enforcing United States law against non-citizens who have willfully violated that law.

Vast numbers of these offenders are murderers, rapists, child molesters, gang members, drunk drivers and fraudsters who have escaped justice in their country of origin and are victimizing American citizens on an alarming level.

It would be nice to hear the same vociferous outrage for American victims of migrant crime as they show for provocateurs like Renee Nicole Good.

I'm not happy that Ms. Good got shot any more than Ashli Babbitt, but when you wave a red flag in front of the bull by engaging in provocative border-line behavior, what do you think is going to happen?

We must also remember that Ms. Good served her ultimate purpose by providing a martyr for some of the creepiest anti-American shadow organizations since the Bund of the 1930s.
