## **Letter: Rejecting the radicals of the left**

Posted Aug 15, 2017 at 9:06 AM

When the progressives of the Democratic party sound the charge they discovered they are on the political battlefield alone.

The proletariat is not interested in trans-gender bathrooms or safe spaces for pampered children. They want immigration reform and an end to sanctuary cities.

The motto of the working class is America for Americans, not illegal aliens. Multiculturalism has proven to be a disaster everywhere it has spread.

The radicals of the "left" who couldn't get elected dog catcher have infiltrated the higher education system and have more in common with the fascist of the 1930's than the founders of our constitution.

America has rejected them and their anti-American platitudes. They can't give their sugar coated poison away, so they have turned to deception and violence as a substitute for being rejected by the American voter.

— Gregory H. Bontrager, Hutchinson
